Customs Duties

Govt. Notice No. 86 of 1931, as amended by Govt. Notice No. 39 of 1932

SCHEDULE I.

A.—IMPORTS.

1. There shall be levied and collected upon goods imported into the Protectorate the several duties set forth in Tables I, II, III, IV and V hereto.

2. The value of goods upon which duty is leviable ad valorem shall be the value of the goods at the place where such goods are purchased as shown on the genuine invoice produced to and accepted by the Comptroller of Customs, together with any purchasing commissions, the cost of packages ordinarily used at the place of purchase, the extra cost of packing and packages for export, carriage to the port of shipment and all other expenses incidental to placing the goods on board the ship, together with the cost of freight, insurance, bank charges, interest, and all other charges up to the time of discharge at Beira: provided that in no case shall the value for purposes of duty be less than the cost of the goods to the importer on board ship at the port of shipment plus 10 per cent., or in the case of goods imported into the Protectorate from contiguous territories, the cost of the goods to the importer at the place of despatch.

The Comptroller of Customs may allow trade discounts recognized in the particular trade and shown on the invoice to be deducted from the value for duty, but no further deduction may be allowed

	<p>on account of any cash or special or sample discount or of any arrangements concerning the export or the exclusive right of sale of the goods or any consideration by which a reduction in value results.</p> <p>3. Whenever goods are imported into the Protectorate under such conditions as render it difficult to determine the value thereof in as much as—</p> <p>(a) such goods are not sold for use or consumption in the country of export; or</p> <p>(b) the right of using such goods, but not the right of property therein, is usually sold or given; or</p> <p>(c) such goods are usually or exclusively sold by or to agents or by subscription; or</p> <p>(d) such goods are sold or imported in or under any other unusual or peculiar manner or conditions, the Comptroller of Customs may determine the value of such goods for purposes of duty in accordance with the provisions of this schedule.</p> <p>4. All invoices for imported goods manufactured in a foreign country and purchased in their country of origin shall be in English and shall indicate the value of such goods as expressed in the currency of that country, and also the value of the same as expressed in British currency, the latter value being computed at the rate of exchange for the time being current between the two currencies at the date of purchase, and such rate of exchange shall be clearly stated on the invoice.</p> <p>5. Where the importer is unable to produce particulars of all or any of the charges hereinbefore referred to the Comptroller of Customs may accept payment of import duty on such valuation additional to the purchase price as in his opinion shall represent the actual cost of the goods as defined in paragraph 2 of this schedule; but where the importer of the goods declines to accept such valuation for the purpose of assessment of import duty, entry of the goods may be permitted by the Comptroller of Customs on payment of the amount of the duty so assessed by him subject to adjustment of same on production of evidence to his satisfaction of the actual amount of such charges within six months of the date of entry of the goods.</p> <p>6. Invoices and other documents relating to the importation of goods may be retained by the Comptroller of Customs.</p> <p>7. Without prejudice to any right of final appeal contained in section 15 of the Customs Ordinance, 1906, the Comptroller of Customs shall decide any dispute which may arise as to the rate of duty to be assessed or dues to be charged on a particular article imported or re-exported whether specifically mentioned or not in these schedules.</p> <p>8. No import duty shall be levied or collected upon the goods set forth in Table VI hereto.</p> <p>9. Where the import duty amounts to less than 3d., a sum of 3d. shall be charged, and where such duty exceeds 3d. or any multiple thereof an additional 3d. shall be charged, in lieu of such excess; provided that in the case of goods imported by post the minimum duty shall be 3d. and thereafter duty shall be calculated to the penny next above.</p> <p>10. A rebate of the full import duty on all goods lawfully re-imported into the Protectorate shall be allowed upon the following conditions :—</p> <p>(1) That a certificate containing a full description of the articles to be re-imported be obtained from a Customs Officer at the time of exportation, which certificate must be produced on re-importation.</p> <p>(2) That the articles re-imported are those actually described in the certificate and are re-imported within eighteen months from the date of exportation.</p> <p>11. A drawback of the full import duty paid on all goods other than perishables lawfully imported into the Protectorate shall be allowed if such goods are exported by the importer thereof within twelve months of the first entry of such goods: provided that, with the exception of commercial representatives' motor vehicles and samples, theatrical properties and articles imported by tourists for their own use, such goods shall not have been used in the Protectorate.</p> <p>12. A drawback of the full import duty paid on goods used in the construction or repair of railway rolling-stock shall be allowed on proof being given to the Comptroller of Customs that the goods have been so used.</p>

NOTES.

For the purpose of ascertaining the horse-power of any motor-car deriving its motive power wholly from a steam, internal combustion or other engine worked by a cylinder or cylinders there shall be taken :—

- (i) in the case of a single-cylinder engine, the horse-power attributable to the cylinder of the engine :
- (ii) in the case of an engine having two or more cylinders, the sum of the horse-powers attributable to the separate cylinders.

The horse-power attributable to any cylinder shall be deemed to be proportional to the square of the internal diameter of such cylinder measured in inches, and shall be determined according to the number of square inches contained in such square, the unit being taken to be :—

- (iii) in the case of a single-acting cylinder having a single piston, one horse-power for every $2\frac{1}{2}$ square inches ;
- (iv) in the case of a single-acting cylinder having two pistons, one horse-power for every $1\frac{3}{8}$ square inches ;
- (v) in the case of a double-acting cylinder having a single piston, one horse-power for every $1\frac{1}{4}$ square inches.

Any motor vehicle deriving its motive power or any part of its motive power otherwise than from an engine worked by a cylinder or cylinders shall be deemed to be of a horse-power exceeding 12 but not exceeding 15, provided that, where the motive power is derived in the part from an engine worked by a cylinder or cylinders the horse-power of the vehicle shall not be deemed to be less than the horse-power attributable to the cylinder or cylinders of such engine.

Where it appears that in consequence of the exceptional design or construction of the engine of any motor vehicle the horse-power as calculated under the foregoing rules is substantially less than the power which the engine is actually capable of developing, the horse-power of the vehicle shall for the purposes of these regulations be taken to be the same as that of a vehicle of equal efficiency deriving its motive power from a cylinder engine of the ordinary type.

In measuring cylinders and calculating horse-power, fractions of an inch and fractions of an unit of horse-power are to be taken into account.

For purposes of duty a fraction of an unit of horse-power shall be taken as one horse-power, except under item 12 (1).

The duty on whisky, brandy, rum and gin shall be calculated on the proof strength as shewn by Sikes' hydrometer at as low a temperature as possible. When such spirits are mixed with colouring, sweetening or other matter in solution tending to conceal the actual strength, an addition of 5 per cent. shall be made to the apparent strength as shewn by the hydrometer in lieu of the test for obscuration.

Six reputed quart bottles or twelve reputed pints shall be assumed to contain one liquid gallon.

Reputed 12 oz., 14 oz., and 16 oz. packets of candles to be deemed to be of those weights respectively.

SCHEDULE II.

ROAD, RIVER AND WHARFAGE DUES, RE-IMPORTATION CERTIFICATES AND OTHER CHARGES.

1. In respect of all imports and import goods in transit through the Protectorate there shall be charged road, river and wharfage dues at the rate of 3 per cent. *ad valorem* save as hereinafter provided.

In respect of goods re-exported from the Protectorate there shall be charged road, river and wharfage dues at the rate of 2 per cent. *ad valorem* save as hereinafter provided.

Such dues are payable on goods entering or leaving the Protectorate at the time of their arrival or departure, as the case may be, and at the rate then in force. Goods in transit or warehoused shall not be subject to any modification of these dues that may have been made during the time they are under bond.

Where such dues amount to less than 3d. a sum of 3d. shall be charged, and where such dues exceed 3d. or any multiple thereof an additional 3d. shall be charged in lieu of such excess; provided that in the case of goods imported through the post such dues shall be calculated to the penny next above.

For the purposes of this schedule *ad valorem* shall be (1) in the case of goods imported for consumption in the Protectorate and of goods in transit through the Protectorate by way of imports into adjacent territories, the value as defined by para. 2 of Schedule I. A; (2) in the case of re-exports from the Protectorate, the value of the goods at the place of despatch.

2. No such dues shall be charged in respect of:—

Postal.	<i>Period during which Orders are payable.</i> If an Order be not paid within three months from the last day of the month of issue, a commission equal to the original poundage will be charged. The commission thus paid must be affixed in Postage Stamps to the back of the Order. Postal Orders which are not presented for payment within six months from the last day of the month of issue must be sent to the Postmaster-General, Zomba, with a request for payment at some specified office.		The Post Office Ordinance, 1916
	An enquiry fee of 2/- will be charged in the case of applications for duplicate Postal Orders of any denomination higher than 2/6 of which the serial number cannot be furnished. If an applicant can neither produce the counterfoil nor give the serial number, no claim in respect of an order belonging to any denomination up to and including 2/6 can be entertained. 	EXPRESS DELIVERY SERVICE— Express messengers are provided for the performance of the following services:—		The Post Office Ordinance, 1916
	<i>Service 1—Express throughout—</i> The delivery of letters, etc., by special messenger within a distance of fifty miles.	First 6 miles: 6d.	
	Letters sent by special messenger for the whole distance (Service 1) will be charged for at the rate of 6d. for the first 6 miles, and 1d. for each additional mile or portion of a mile.	Each additional mile or portion thereof: 1d.	
	The fee payable will in no case be less than the ordinary Postal Rates of the Protectorate.	Minimum charge 1/-	
	In cases where a reply is sent a further charge is made calculated at half the original mileage fee; fractions of a penny being reckoned as one penny. This may be prepaid by the person at whose instance the original service is undertaken.	Replies charge half original mileage	
	Messengers may be kept waiting for a reply for one hour. If detained longer a charge of 3d. per hour is made.	Detention over one hour 3d. per hour.	
	Persons desiring to send several packets for delivery to different addresses by the same messenger may do so if they choose to risk the chances of error and confusion by the native carriers. In no case, however, will a messenger be despatched with a greater weight than 20 lbs.		
	<i>Service 2—Express delivery after transmission by post—</i> Letters forwarded by this service are sent out for delivery by special messenger upon arrival at the Post Office of destination. Articles to be forwarded by ordinary post and afterwards delivered by special messenger from the Post Office of destination (Service 2) should be marked "Express," and have affixed postage stamps to the amount of at least the minimum Express Fee (6d.) in addition to the ordinary postage. It is desirable that Express Packets should be brought to the Post Office counter and not posted in a letter-box. On arrival at the Post Office of destination the packet will be sent out for delivery accompanied by a form upon which is stated the name of the addressee, the time of the messenger's despatch, and, in the event of the distance being greater than that covered by the fee affixed to the letter, the amount of the additional charge payable on delivery. This form should be signed by the person receiving it, and after being marked with the time of the messenger's arrival, handed to him for return to the Post Office.	Ordinary postage plus express fee 6d.

Postal.	<p><i>Service 3—Express delivery on arrival of mail—</i></p> <p>By this service any person can arrange for the delivery of his correspondence arriving by a particular mail, or a delivery on fixed days of the week.</p> <p>Persons desiring that their correspondence arriving by any particular mails should be sent out for delivery (Service 3) should, previous to the arrival of the mail, make written application to the Postmaster, enclosing stamps for the payment of the fee calculated at the rate of 6d. for the first 6 miles and 1d. for each additional mile or portion of a mile.</p> <p>If there are no letters a messenger will (unless otherwise arranged) be despatched with an intimation to that effect, the fee paid being retained to pay for this service.</p> <p>PRIVATE BAGS—</p> <p>1. CONDITIONS OF RENTAL.—The Department undertakes to make up private post bags on the following terms :</p> <p>(a). Each bag must be provided by and at the cost of the person desiring the facility, and is subject to the approval of the Postmaster-General.</p> <p>(1) For routes served by native runner, a canvas bag weighing not more than 2½ lb must be supplied. The bag should approximate to the size 22 in. by 14 in. and be fitted with a canvas sling, neckstrap and hasp, and lock with at least two keys.</p> <p>A leather tab bearing the name and address of the renter should be riveted to the bag.</p> <p>(b). A rental of 10/- per annum (1st January to 31st December) must be paid in advance, and if the renter requires the bag to be made up at more than one Post Office, a separate rental will be chargeable for each office. In respect of new services rental is charged for the unexpired portion of the year, any portion of a quarter being considered a full quarter.</p> <p>All rentals are renewable on the 1st of January each year.</p> <p>It is to be clearly understood that the rental charged is purely for the making up of the bag, and not for the conveyance.</p> <p>The charges for a Private Bag conveyed by the Post Office are as follows :</p> <p>1. For each daily conveyance by the Post Office in one direction by special messenger to a point within the Township boundary or two miles of the office whichever be the greater (either out or in) 15/- a year.</p> <p>2. For conveyance by Postman, on mail routes, for a distance of :</p> <p>Not exceeding 10 miles £2 a year.</p> <p>and exceeding 10 „ £3 „</p> <p>(c). If the renter resides on a postal route, the bag or bags will be conveyed by mail carrier providing circumstances permit. If the renter resides off a mail route, he must make his own arrangements for the conveyance of the bag to or from such route or the nearest Post Office.</p> <p>The bag must be made up at the nearest convenient office. (In order to avoid delay to the mail carrier, it is usual to make up private bags at the office situated at the starting point, or at an office en route at which a stoppage is made for sorting purposes, but a bag will not be made up at one Post Office for delivery at another.)</p> <p>(d). The bag may be used for letters for persons in the neighbourhood of the renter's residence, at an extra charge of 10/- a year for each person, provided that the permission of the renter is given to the Postmaster in writing. Where such permission is given, the renter will be held responsible for all unpaid postage on letters for such persons.</p> <p>Articles which cannot be delivered within a reasonable period should be returned to the Post Office endorsed with the reason for non-delivery. Mis-sent articles should be sent back by the first opportunity.</p>	<p>First 6 miles: 6d.</p> <p>Each additional mile or portion thereof 1d.</p>	<p>The Post Office Ordinance, 1916</p> <p>Gazette Notice No. 184 of 1921</p>

Postal.	<p>PRIVATE BAGS—(continued).</p> <p>(e). Registered packages are usually not delivered until receipts for them are obtained. An exception is made in the case of private post bags, the packets being enclosed therein with the relative receipt slips, provided the renter indemnifies the Postmaster in writing from all liability and guarantees to return the receipts by first post. The forwarding of parcels can similarly be arranged, but the Postmaster will use his discretion, based principally on the circumstances of conveyance, as to whether he will send out bulky or fragile parcels attached to the bag, or require them to be called for at his office.</p> <p>(f). The renter must provide for the bag being met on its arrival at the appointed place and for the return bag being handed to the proper officer on its return journey. Under no circumstance can the means of conveyance be kept waiting at any point en route should the bag not be ready for despatch, nor will a detour from a recognized route be made to deliver a private post bag.</p> <p>(g). Transfer of a private post bag can be effected only on a written request of the registered holder, and with the authority of the Postmaster-General.</p> <p>(h). At offices where private boxes are installed a private post bag cannot be rented by any resident without a private box being rented in addition.</p> <p>(i). All applications for private post bags should be made to the Postmaster of the office from which the service is desired: and that officer will obtain the authority of the Postmaster-General before instituting the service.</p> <p>(j). In the event of the above conditions not being complied with, or if in the opinion of the Postmaster-General improper use is being made of the bag, the Postmaster-General may discontinue the service forthwith.</p> <p>PRIVATE BOXES.—</p> <p>1. CONDITIONS OF RENTAL.—Private Post Office Boxes may be rented at certain Post Offices, and the renter of a Private Post Office Box will accept the lease under the following conditions, and will forfeit all rights by non-compliance or failure to carry out any or all of the rules hereinafter set forth. He will be held responsible for the observance of the regulations, and no other person will be recognized in connection therewith.</p> <p>(a). The rental fee for the box, is £1 1s. small box, £2 2s. for large box per annum, which is payable in advance, and is calculated to 31st December in each year, any portion of a calendar quarter being considered as a full quarter.</p> <p>(b). The hours for access to Private Post Office Boxes may be varied at any time by the Postmaster-General.</p> <p>(c). A box may not be rented in a fictitious name, or for an improper purpose.</p> <p>(d). The transfer of Private Post Office Box rights from one Post Office to another is not permitted; and the transfer of a box from one person to another is subject to the approval of the Postmaster-General and will only be considered in cases of bona fide change of business or other sufficient reasons.</p> <p>(e). No two persons, unless they are in business partnership, can jointly rent one private box, and persons or firms trading under two or more designations may be required to rent a box for each designation. Under this regulation any group of companies having a joint management may be required to rent a separate box for each company.</p> <p>(f). Delivery into a Private Post Office Box is in all respects equivalent to personal delivery to the addressee.</p> <p>(g). Mail matter will be placed in a box only when addressed to the renter of the box, or to his care, or specially addressed to the number of the box.</p> <p>(h). 	(i). Mail matter delivered in error, or accidentally addressed to a wrong box, must be immediately reposted, with the words "Not for box" written thereon. Should a case come under notice where this is not done or flagrant neglect is shown by the renter or person in possession of the key in detaining or delaying such mail matter, the box may be declared forfeited and the return of the keys demanded.		
	(j). In exceptional circumstances—the loss of a key for instance—mail matter from any private box may temporarily be delivered at the counter, subject to compliance with the provisions of paragraph (k).		
	(k). Unless the renter be well known, or be identified by some one known to a responsible officer of the Department, the only admitted "proof of identification" shall be the receipt for the box rent.		
	(l). Mail matter will be re-addressed from one box to another only in exceptional circumstances, and upon application to the Postmaster-General. Postmasters are not obliged to re-address mail matter unless the box be closed.		
	(m). A Private Post Office Box is provided exclusively for the reception of mail matter which has passed through the Post. Any private articles deposited therein by a renter will be surcharged as if posted out of course.		
	(n). When a box is let two keys are supplied both of which are required to be returned to the Postmaster when the box is given up. If a key is lost information must at once be given to the Postmaster in order that a new lock may be fitted, the cost of which will be payable by the renter.		
	(o). No lock may be placed on any box other than a lock supplied by the Department, and no repairs to a box may be executed except by the Department.		
	(p). The renter of a box must defray all expenses for damage to such box or to locks or keys thereof, if caused by him or due to his negligence.		
	(q). The Postmaster-General may refuse to let or re-let a box to any person without assigning any reason for such refusal.		
Rent of Crown Lands.	(r). The foregoing conditions may at any time be augmented or revised, as the Postmaster-General may from time to time deem expedient, by notification in the Post Office Guide; and any such addition or revision shall apply to every box rented under the foregoing conditions. The above tobacco and cotton figures represent the quantities purchased in each district, and do not accurately reflect the production by districts, as many natives grow their tobacco and cotton in one district and sell in another.

(d)

General information regarding the industry and the possibilities of development.

Many different types of forest are to be found in the Protectorate, ranging from the small dense evergreen mountain forests to the very open acacia or palm tree savannah of the lake-shore plains. Most of the forests are dry and open types and many are composed almost entirely of small trees which are of little commercial value except for supplying poles and fuel for local use. Most of the species of trees contained in the forests are common to neighbouring territories, and some of them are to be found so far away as South Africa, Angola and Kenya.

Trees of suitable dimensions and quality for conversion into sawn-timber are scarce, and in many localities are principally confined to the banks of streams or to damp ravines on hill slopes. On Mlanje mountain, chiefly confined to gullies and ravines, are small patches of forest containing the valuable coniferous tree *Widdringtonia Whytei* (Mlanje cypress) which attains large dimensions and provides a strong, durable "softwood" timber. These forests are worked under the management of the Forest Department for supplying building timber to the Public Works Department; they are insufficient in extent to allow of concessions being granted to the public for exploitation, although small quantities of sawn cypress timber are available for sale from time to time.

Imports in 1932 of unmanufactured timber and wood were valued at £2,479 compared with £2,749 in 1931. Exports in 1932 of unmanufactured timber and wood were valued at £3,819, compared with £3,167 in 1931.

* This figure comprises the accessible patches of *Widdringtonia* forest on Mlanje Mountain, a few small blocks of *Copaifera mopane* forest, and government and privately-owned forest plantations. It is impossible to give an acreage for riparian forest which consists usually of only a single line of trees, or for commercial timbers scattered throughout some of the savannah and other types of forest.

† Open woodland and savannah types, some of which contain a certain amount of commercial timber scattered throughout them.

A very considerable portion of the Protectorate consists of hilly and broken country in which the forests play an important part in preventing serious soil erosion and in regulating water-supplies. Thirty-nine forest reserves have been constituted in recent years, most of them mainly for protection purposes. Their aggregate area amounts to over 2,400 square miles and some of the reserves contain forests of a somewhat better quality than the general poor types.

A scheme for the institution of village communal forests (called Village Forest Areas) is showing marked progress. Under this scheme small, widely-scattered areas of woodland are selected and demarcated by village headmen assisted by district foresters. When approved by the District Commissioner (who has the technical advice of the divisional forest officer) the areas are allocated to the headmen who are then each responsible for the protection and management of their own Village Forest area under simple plans advised by the Forest Department. At the end of 1932 there were 1,976 allocated Village Forest Areas, having an area approximately of 109,884 acres.

The Forest laws (the Forest Ordinance, 1926 and its supplementary Forest Rules, 1926) provide for the protection of Forest Reserves; Village Forest Areas; all trees growing within 30 yards of a river or stream; vegetation on specific hill slopes which may be declared prohibited areas; certain scheduled species of trees on other Crown lands. Apart from these restrictions natives are allowed to cut trees and forest produce for their own use without licence or payment, but non-natives are required to pay royalties on all scheduled forest produce taken from Crown land.

Forest plantations continue to be established by European settlers throughout the Protectorate mainly for the production of fuel necessary for tobacco curing and also for complying with the afforestation covenants contained in Government leases. Government plantations exist at various centres, their aggregate area being over 1,700 acres, and further afforestation is being conducted (1) in the planting up of Widdringtonia forest following exploitation and (2) in systematic trial plantings of selected indigenous and exotic species of trees with a view to ascertaining their comparative value for afforestation purposes under various climatic and edaphic conditions. In addition, a great deal of other silvicultural experimental work is being carried out in all divisions of the Forest Department. Natives are being encouraged to form communal plantations in localities where insufficient natural forest remains for the allocation of effective "village forest areas," and for this purpose plants and seeds are distributed free of charge from government nurseries in many districts. Tree seeds are sold to the public by the Forestry Department and advice on forestry matters is given whenever asked for.

The only forest industry of any importance is the extraction of timber and firewood for local use. There are no forest sawmills, the trees being converted into portable dimensions by hand-sawing at the place where they are felled. Firewood is the general fuel and large quantities are consumed in tobacco-curing; brick-making; lake transport, etc., as well as in domestic use. Vast quantities of poles and bamboos are used by the native population in the building of their huts, which invariably have to be renewed every three or four years, or even more frequently. Most native domestic articles are made from local timber, and near the shores of Lakes Nyasa and Lake Shirwa and along the banks of a few of the larger rivers, canoes are made in the form of hollowed-out tree trunks. The fibrous barks of various trees are used by the natives as a string for binding purposes and most of the numerous native medicines are derived from forest products.

Furniture, chiefly of mahogany (*Khaya Nyasica*), is manufactured by some of the missions and by native cabinet makers for local sale. Mats for local trade are woven from palm leaves by natives living in localities where palms are plentiful, and there is also a small local trade in baskets and wicker-work made from split bamboos and reeds, and in curios fashioned from African ebony (*Dalbergia melanoxylon*) and other hard woods. Strophanthus seeds and beeswax are collected by natives for sale to local traders and small quantities of these products are exported annually.

6. INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES.

(so far as not included under sub-sections 1-5 above).

Industry.	Number of Establishments or Manufactories.	Number of persons employed.	Cost of Raw Materials used.	Output during the year.	
				Quantity.	Net selling value at factory or works.

In the strict sense of the term there are no industrial establishments or manufactories in the Protectorate.

Furniture, baskets, etc., are made at the missions and elsewhere; mats and pottery by natives in certain districts; maize meal and beer are made by natives throughout the Protectorate for their own use.

There are fourteen ginneries in the country, but only three of them worked in 1932 and they handled 18,321 cwts of lint cotton. 24,107 cwts. of tea were manufactured in the Mlanje district almost entirely.

7. SUMMARY OF INDUSTRIAL DEVELOPMENT.

A summarised statement of any developments in the agricultural, forestal, fishing, mining, and other industries of the Protectorate during the year under review, with a statement as to progress up to date. A special account should be given of government grants or other action for the development of the natural resources and industries of the Protectorate.

Tobacco, cotton and tea are the most important crops grown for export.

With the aid of grants from the Colonial Development Fund bored wells and dug wells are being constructed for the relief of natives in the drier parts of Northern and Southern Provinces, as well as for the opening up of new areas for native settlement.

LOCUST INVASION, 1932.

A slight and unimportant invasion of the north west corner of the Protectorate by the tropical migratory or hairy-chested locust (*Locusta migratorioides*, R. and F.) occurred early in the year. In all, three thin but extensive swarms entered the country, two from Tanganyika Territory on January 24th and 6th/7th, and one from north eastern Rhodesia on March 18th. The first two travelled more or less directly into north eastern Rhodesia and the third circled round and returned to that country. Only the first of these laid eggs over a small area near the point where it crossed the Songwe river. A scattered hatching of hoppers resulted which was rapidly dealt with by the natives and no flying swarms developed.

Towards the end of August and early in September a more serious invasion by the same species of locust took place from Portuguese territory to the east of Lake Nyasa, large flying swarms entering the Protectorate in the vicinity of Namwera, others crossing the lake from east to west. The first of these swarms passed rapidly through the Protectorate practically due south and reached the Zambezi valley. Flying swarms continued to enter the Protectorate during October and November from the same direction. These split up, travelled in several directions, and later laid eggs over large areas mainly following the line of the Shire river, from the southern end of the lake to the Chikwawa and Lower River districts. Hopper swarms of some magnitude developed towards the end of November and during December. Considerable reduction of these swarms was obtained by mechanical means and little damage to crops was done by them mainly owing to the fact that they were present very early in the season. Locally bred flying swarms, from hopper bands that had escaped attention in forest reserves or uninhabited country, began to appear at the end of December.

The North Nyasa district was invaded during November and December by very large flights of the same locust from Tanganyika Territory. These followed mainly the line of the lake shore and very extensive egg-laying took place, giving rise to an enormous number of hopper swarms. This invasion confined itself to the North Nyasa district.

In general no serious damage was done by this locust in the Protectorate. Occasionally native gardens were totally destroyed, but much of the attacked crops recovered.

Enormous flights of mature red-winged locusts (*Nomadacris septemfasciata*, Serv.) invaded the Protectorate from north eastern Rhodesia through Fort Manning on December 24th and through the Kasungu district in the vicinity of Kalungwe Hill (Lat: 12° 30's.). These flights crossed the Protectorate to the lake shore and also travelled south as far as the Blantyre district. Egg-laying took place at once over very large areas in every district south of, and including, the Kasungu district.

At about the same time (December 1932 and January 1933) the Chikwawa and Lower River districts were invaded by both species of locust, with *N. septemfasciata* predominating, from the Zambezi valley.

Previous invasion of the Nyasaland Protectorate by the same two species of locust occurred from approximately 1894 to 1910, since when the country has been free. Neither the South African brown locust (*Locustana pardalina*, Wlk.) nor the desert (*Schistocerca gregaria*, Forsk.) have been recorded from the Protectorate.
